

THE VILLAGE OF KINDERHOOK, NEW YORK

NOTICE TO RESIDENTS OF KINDERHOOK

County Waste is offering “single stream recycling” service which the Village plans to use.

County Waste will be providing a recycling tote to residents to place all paper, plastic and aluminum for pickup at no cost and without the need to separate. County Waste hopes to start this service on November 15, 2010.

The recyclables will be taken to their location at the Port of Albany to be sorted by County Waste.
